Profile Summary

I'm a B.Tech 2 year student with a passion for software development and web development, currently pursuing a degree in Computer Science. Completed learning programming languages such as Java, C++, and C, with strong object oriented programming skills coupled with expertise in web technologies including HTML, CSS, JavaScript, and frameworks like React and Bootstrap able to convert design into code fluently. Experienced in building project with MongoDB and SQL. Experience with data structures algorithms and software design to perform task associated with developing. Currently practicing Data structure and algorithm for solving complex and interesting problems. It has been 2 year In art of writing code and solving problems. Effective communication, problem-solving skills, participated in SIH hackathon competitions. Want to contribute to software Engineering. Attend Google Gemini (Artificial Intelligence) working, organize by GDSC community, learn practically how Gemini Api works

EDUCATION

Pursuing Bachelor of Technology in Computer Science, @Sushila devi bansal college of Technology 2022 - 2026

CGPA up 3rd Semester: 8.20

Higher Secondary education, Jaison's Academy (CBSE); Percentage: 92% 2021 - 2022

SKILLS

Programming Languages	:	Java, C++, C,
Web development	:	React, Html, Css, Javascript, Nodejs, Express js, Git, Shopify, MongoDB
Framework	:	Bootstrap, Tailwind css
Soft Skills	:	Communication Skills, Problem-Solving Abilities, Leadership Potential, Presentation Skills, Oops

EXPERIENCE

Trainer for C-programming Feb 2024 - March 2024
@Sushila devi bansal college of technology Indore, Madhya Pradesh

- Conducted interactive C programming sessions for a group of 30 students, resulting in a 90% improvement in understanding.
- Collaborated with faculty members to develop customized curriculum materials tailored to students' learning needs and objectives.

Designed Shopify Web-page Jan 2024 - Jan 2024
Freelancing Indore, India

- Developed and design custom Shopify site with Liquid CSS, optimizing UX and integrating client features..

PROJECTS

- Microstep – Practical skills development platform through internship and certificate :- [Visit here](#)**
 - Problem : Gap in college curriculum that student Lack in practical experience and Opportunity.
 - Solution : Created a Working web application which connect the student with internship task related to there course work, Over 340+ student participated for internship 80% student have completed there task.
 - Features : Student registration (Google auth), Secure data storage (MongoDB atlas), Admin pannel for selecting student and sending offer letter, Certification (NodeJS, Nodemailer), Code submission through (Github, Google drive)
 - Tech Stack : React, Tailwind, Express JS and Nodejs, Nodemailer, Mongoddb atlas
- Authentication app – A react base application from scratch to deployment :- [Visit here](#)**
 - Built a full stack react base authentication app. Where user can sign up and login.
 - Authentication of user has been done by OTP, Encryption of password has been done.
 - Tech stack : React, Tailwind, Express JS and Nodejs, Mongoddb atlas to create a user-friendly interface.
- Digital-Daily News Application – A real time API base news app :- [Github link](#)**
 - Designed a news web application using Bootstrap for responsive design.
 - Integrated news APIs to fetch and showcase current news content.
 - Developed with JavaScript to ensure an intuitive user experience.

PRACTICE PROJECT

- [Personal Portfolio](#) :- Developed an interactive personal portfolio website emphasizing creativity and technical proficiency.
- [Password manager app](#) :- A react base app where we can store our password. To reduce frustration of forgetting password
- [Doctor appointment website](#) : Designed Frontend of appointment website.
- [Linked in clone](#)

ACHIEVEMENTS

- Achieve second rank in Intenal hackathon for Smart India hackathon.
- Over 260+ leetcode Question has been solved, **1494** contest rating @[LeetCode](#).
- Participated in Debugging competition for Data structure at my college
- Successfully completed online full stack web development course.
